Highway Department October 2014 Monthly Report:

We have completed additional culvert replacements. We worked on two sections of Lakeview Rd

One day was spent blacktop patching

Continued road side mowing

Finished mixing sand/salt

Spent one day cleaning up trees/limbs following a wind storm

Finished repairing and painting our snow removal equipment

Started setting up the snow removal equipment prior the approaching winter season

We started removing the stumps of trees that we cut on Cambridge Rd last winter. This is the second step in a road widening project. Following the removal of the stumps we will slope the edges of the road, realign the ditches, regrade and gravel the driving surface

We sanded the concrete floors in the Highway Superintendent's office, lunch room and parts room in the Highway Garage. We then applied two coats of epoxy paint.

Inter-departmental assistance the Highway Department provided:

Town

Blew out the outside water lines at the Park and Town hall to prevent them from freezing

Our full crew worked 4 days adding gravel, topsoil and seeding the edges of the sidewalks to improve pedestrian safety

Copake Fire Company

We borrowed a fire truck to flush debris from a culvert on Empire Rd.

Park

Our department assisted the park in setting up the Haunted House. We moved the props from storage in the West Copake fire house, as well as set up the “walls” in the park building. We spent one and a half days in setting up and one day with the take-down and restoring of the props into storage.

Inter-municipal Cooperation included:

Town of Hillsdale

They sent two men to assist us with sidewalk improvements for one day

We borrowed their blacktop saw

Town of Ancram

We sent them a truck and operator for 3 days to haul materials

Columbia County Highway

They are lending us a snow plow for one of our main plow trucks. It is a surplus plow for them. By borrowing it we will not have to purchase a new plow at this time
