Highway Department July 2018 Monthly Report:

We have completed this year's oil and stone operations. This process, also known as Chip Sealing, involves the application of a layer of asphalt emulsion that is then covered by a layer of stone aggregate. The oil seals and protects the existing layer of pavement. Once embedded, the stone provides a thin wearing course for vehicular traffic. The roads sealed this year were: Underhill, Deer Track, Black Grocery, Overlook and Twin Bridges Roads

We graded and spread gravel on Sky Top Road

Placed stone in the ditches on Lakawanna Road to prevent future washouts

Continued sandblasting and painting our snow plows and wings

Installed and repaired road signs on 2 days

We continue road side mowing until the fall

Inter-departmental assistance the Highway Department provided:

Town

***We took down the Hamlet flags following Independence Day
We pressure washed the Town Hall***

Park

***Transported a water sample from the Park to the lab in Albany for testing
Cut several low hanging limbs
Cut brush along the chain link fence that is along the property line
Repaired the tractor used for tilling the clay on the baseball fields
Graded the tractor pulling track
Repaired a broken picnic table***
