

Town Board to convene Zoom Informational Meeting — July 30th at 7:00 p.m.

The Copake Town Board will convene a meeting on Thursday evening, July 30th at 7:00 p.m. to present information about Hecate's proposal to site a utility-size solar facility in Copake. It is Hecate's intention to install approximately 200,000 solar panels on 500 acres of a 900-acre "project area" in Craryville. Hecate also may seek to place an energy storage facility, consisting of several 53-foot shipping containers, along the north side of State Route 23.

Copake's solar attorney will attend the meeting, and will discuss the proposed project, the laws governing the process by which Hecate seeks to site the project, and related matters. He then will respond to questions and comments.
